**Tsongas Industrial History Center**  
Boott Cotton Mills Museum  
Lowell National Historical Park  
115 John Street  
Lowell, Massachusetts 01852

## Boott Camp

**July 9-13**  
**July 30-August 3**

..... Build and test your own canal system, weave cloth on a four-harness loom, explore the historic Boott Mills and boardinghouse, visit an operating factory weave room, ride a trolley, take a boat trip on the Merrimack River, do crafts, and play games. Explore the roots of the American Industrial Revolution and find out how this amazing time in history still affects the way we live today!

## Wonders of Water

**July 23-27**

..... Water is very important to the city of Lowell. Explore Lowell's awesome water-ways aboard a National Park Service boat, learn about water by doing wacky experiments, build a working power canal system, and investigate the creatures that call water home. Discover the amazing connections between science and history in the "Venice of America."

## National Park Adventures

*Visiting New Sites for 2012!*

**July 16-20**

..... Visit five National Parks and affiliated areas in Massachusetts to explore America's history and culture. Enjoy a boat tour of Lowell's canals and the Merrimack River. Learn about influential Concord residents and visit their resting places at Sleepy Hollow Cemetery. Make and fly a kite at Salem Harbor. See a huge waterwheel and blast furnace at Saugus Iron Works. Meet some of the state's strangest trees at the Arnold Arboretum in Boston.

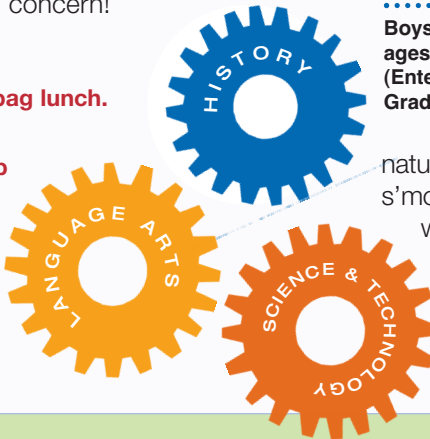

## Summer Camp Staff:

Summer camp programs are designed and staffed by professional educators from the University of Massachusetts Lowell and Lowell National Historical Park. We have at least one staff member for each 8 to 10 children. Safety is always our first concern!

**Campers bring a brown-bag lunch.**  
**Snacks provided.**

**All campers receive camp T-shirts.**

**Summer Camps run Monday through Friday from 8:30 am to 3:00 pm.**

## Boott Camp: Discovery!

**August 6-10**

..... For the older camper who wants more of a challenge. Can you drop an egg from fifteen feet without breaking it? See how far you can make a rocket fly.

Discover plants and animals along the Merrimack River. Have fun on field trips. Weave cotton cloth on four-harness looms. Become an inventor using household "junk" and get messy with science. This camp will take you a step beyond the ordinary!

## Eco-Explorers

*NEW Camp for 2012!*

**July 30-August 3**

..... Spend a week with other "eco-explorers" learning about nature in and around an urban national park. Go canoeing, visit a nature center, take an urban nature hike in downtown Lowell, and try to make s'mores without a campfire. Discover the natural world of your own "backyard."

## The Tsongas Industrial History Center

The Tsongas Industrial History Center, located in the Boott Cotton Mills, 115 John Street, Lowell, Massachusetts, is a collaborative project of the University of Massachusetts Lowell Graduate School of Education and the National Park Service at Lowell National Historical Park. The Center encourages the teaching of industrial history in a hands-on way through on and off-site educational programs to over 50,000 students annually.

The National Park Service preserves, protects, and interprets America's heritage. Lowell National Historical Park tells the story of America's first planned industrial city and the industrial revolution. The park includes mill complexes, a power canal system, gatehouses, and worker housing. The park is open to visitors throughout the year.

**Space is limited. Sign up early!**  
**Pre-registration required.**
